

Kat Cammack's Lies and Her Campaign for Chair of the Republican Party's Republican Study Committee and Call to Come Out of Hiding

May 19, 2022

Dear Congresswoman Cammack:

Coercion is why U.S. Congressman Ted Yoho apologized to Alexandria Ocasio-Cortez. Mr. Yoho surrendered knowing that the public would view his apology as an admission of guilt. This helped AOC advance her lies about America's power structure. We lost an opportunity to push back against the Left's lies and instead the Left enforced its lies against Mr. Yoho. This is exactly what my bill the "Eva Asensio Anti-Judicial Corruption Act of 2023" resolves—the use of coercion by the Left to enforce their lies.

Long before the incident, Mr. Yoho had already announced his retirement, and you, whom Mr. Yoho had fired, was behind in the 2020 Republican race to decide who would be Mr. Yoho's successor. It was a two-man-and-one-woman race. Mr. Yoho did not support her. Mr. Yoho's son supported another candidate. You only won because you worked for Mr. Yoho and got to use his connections. You knew what AOC did to Mr. Yoho. You chose not to use it in your campaign or to use it to further the conservative cause.

When I replace you in Congress, AOC's days of lying and making a mockery of the Constitution will be over. I am an experienced successful investment fraud fighter and a defender of the Constitution against the Left and their Marxist ideas. I can and will confront AOC's lies with the full force of the Constitution and Bill of Rights.

I have exposed your lies. Your "from homelessness to Congress in 10 years" story is a lie. It is not a story that highlights America's greatness. It is a tragic story of a liar abusing democracy. You are the antithesis of what it means to be a conservative. It insults the values and principles enshrined in the Declaration of Independence and Constitution—principles and values protected by the Bill of Rights. I insult my love for America as a refugee from communism in Cuba and what I have worked for my whole life. Now about the Republican Study Committee (RSC).

The purpose of the RSC is to apply conservative values in Congress. The RSC needs strong leadership with proven success—not a successful liar. To end the Left's takeover, we must first rid the party of the shameless and opportunistic in our own party. As always, I call on you to face me and my bill in the public square.

Sincerely,

Manuel P. Asensio

Candidate for Congress in
Florida's 3rd Congressional District
