

**OPEN LETTER DEMANDING INFORMATION ON KAT CAMMACK DISCLOSURE TO  
PRESIDENT TRUMP ABOUT THE PRIMARY CONTEST IN FLORIDA'S 3<sup>RD</sup>  
CONGRESSIONAL DISTRICT**

April 12, 2022

Dear Kat:

This letter is a follow-up to the numerous attempts I have made to discern the significance of the video you made and posted on Facebook on April 6, 2022, titled "Big News! Just hung up with President Trump! Here is what he had to say . . . Spoiler alert . . . He's endorsing our re-election campaign!"

You have seen my proposed litigation in draft and final form titled "The Eva Asensio Anti-Judicial Corruption Act of 2023 (Act)" and my First Amendment to Consideration of the Domestic Relations and Domestic Violence Exemption at the US Judicial Conference. These are central to any review of the legal and regulatory status of abortion and parenting rights, and the 2020 election or former Vice President Mike Pence's role in certifying the electoral votes.

Did you advise President Trump that you have refused to disclose your position on any of these matters and the Eva Asensio legislation?

The video is over 4 minutes long but contains no information about President Trump's knowledge or opinions about the history of controversies between us, the stark differences in our policies on all matters related to the Constitution, its doctrines, values, and principles, and the policies of the America First and Trump Movement, and the basis for my assertion that your political ideologies translate to anti-Trump positions.

You are hiding our issues from the public arena.

You have refused to address our important policy differences. You have worked to keep information about our arguments from the public, the press, and the voters. You are concealing the history of our dealings and why I am running against you.

Our contest is not about your voting record or Pro-Trump publicity.

It's about who is better equipped to deal with federal judicial corruption and restore the rightful powers of Americans, Congress, and the President to "take care that law is faithfully executed" in accordance with the Constitution.

This is central to ending the advancement of WOKE totalitarianism in America and to reverse it. To ending the unconstitutional fiscal and monetary policies that have created hyper-inflation, fake interest rates, and economic stagnation, securing our borders, reviewing the constitutionality of the 2020 election, and correcting the legal and regulatory status religious and speech freedoms in America.

This is my 10<sup>th</sup> open letter to demanding that you address the policies and political ideologies in our campaign. My 1<sup>st</sup> open letter to you is dated November 17, 2021. My 9<sup>th</sup> and most recent is dated January 14, 2022. These letters are strictly about the facts of our policies differences.

To avoid any confusion and eliminate any doubt, I respectfully request that you agree to discuss these matters with me before the press.

Sincerely,

*Manuel P. Asensio*

Manuel P. Asensio  
Candidate for Republican Congressional  
Nomination from Florida
