

OPEN LETTER TO CONGRESSMAN JIM JORDAN

April 28, 2022

Dear Congressman Jordan:

I have long admired you for refusing to cater to the Leftists and Republican RINOs. You distinguished yourself as a smart, knowledgeable and capable defender of our Commander-in-Chief. I cheered when President Trump awarded you the Presidential Medal of Freedom.

Now it is time for us to join forces against all those Republicans RINOs who support Chief Justice John Roberts's interpretation of the Constitution's Take Care of Law clause and worked closely with him at the US Judicial Conference against President Donald J Trump.

My proposed legislation – the Eva Asensio Anti-Judicial Corruption Act of 2023 – ends Roberts's ability to work with both sides and organize unconstitutional and undemocratic national policymaking at the US Judicial Conference. You and I can jointly introduce this landmark Bill in our Congressional District. The mere act of introducing this bill will send up the flag of liberty in America.

I have the information and knowledge needed to determine whether those officials who certified the 2020 election were being faithful to the Constitution. I am certain that once you and I unite our forces, former vice president Michael Pence will realize the mistakes he made when he took advice from a retired judge and the same Republican lawyers who worked with Roberts against Trump.

I discovered the mistakes Congress made 40 years ago in the "Judicial Conduct Act." These provided Roberts with the opportunity to use his position as the presiding officer of the US Judicial Conference to marshal federal *and state* judicial corruption into an unconstitutional and undemocratic executive and legislative power against President Trump. Now it is time for us to confront Roberts and fix the mistakes CONGRESS made.

We are natural allies and together we can restore the Declaration of Independence and Constitution to their rightful place and help President Trump make this country great. Thank You and God Bless America.

Respectfully,

Manuel P. Asensio

Manuel P. Asensio

Candidate for Republican Congressional
Nomination
