Subject: Caught Red-Handed?

dictated not read please pardon any errors.

Judge Abrams,

By now you should be willing to accept and take full responsibility for conspiring and colluding with Colleen and Janet by fabricating an order for the 3 of you to tell a slanderous and fictitious story about me and my family (and my case against Janet) in the daily news on Monday, January 21, 2019.

Why did it happen? Why is the US chief justice protecting you?

answer is very simple: you are to the US chief justice of what Fasayna is to the chief judge of New York State.

That makes five federal judges illegally colluding against one American father and his daughter and their property that belongs to no one but them.

let me be sure that you understand that one of the five is the Honorable Robert G Roberts Jr.

that too is very simple and easy to explain: Janet is to the New York State's administrative board of the courts ("ABC") what the Hon. Roberts is to the Office of Court Administration ("AO").

is one final matter the dirty dealing that goes on in settling complaints privately so that they never get to the conference and I never reported the Congress.

cannot happen here. I have a right to act against this type of malicious deliberate federal misconduct no matter who the article 3 judge happens to be.

we should settle and we should settle quickly because my daughter and I are suffering damages every day as a result of your malicious and deliberate misconduct.

A settlement has to include a provision of the use of the domestic relations exception to federal subject matter jurisdiction or any claims of immunity by the New York judges against New Yorkers

This is the heart of America these are non-numerate rights.

these are comprehensive and unilateral rights that government has no right to regulate and government has not regulated and the judges cannot regulate he's right by colluding at the conference and then colluding with the chief judges.

I pray that you will call me to commence settlement discussions or at least grant me and my daughter interim relief forth with.

This is WE THE PEOPLE Speaking to you directly. not through the army of lawyers and ethical experts and experts on legal jurisdiction who have caused this problem for WE THE PEOPLE.

thank you and God bless the American people and their American Constitution.
